

My Simple Rock-Paper-Scissors Game

My Simple Rock Paper Scissors Game

Computer Choice:

User Choice:

Result:

User can choose between three items (Rock, Paper, Scissors) to battle the computer in the classic game of Rock Paper Scissors

Round #1

My Simple Rock Paper Scissors Game

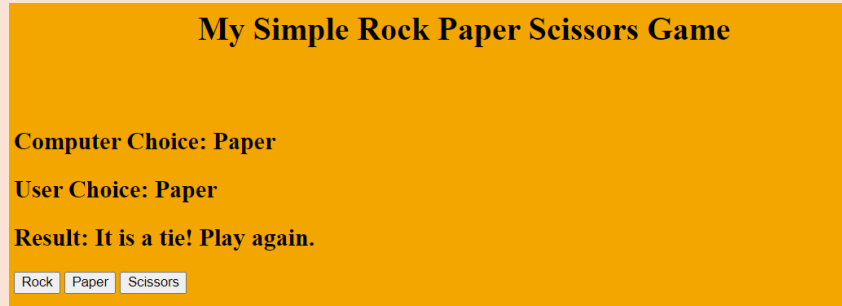

Computer Choice: Paper

User Choice: Rock

Result: You lose, try again

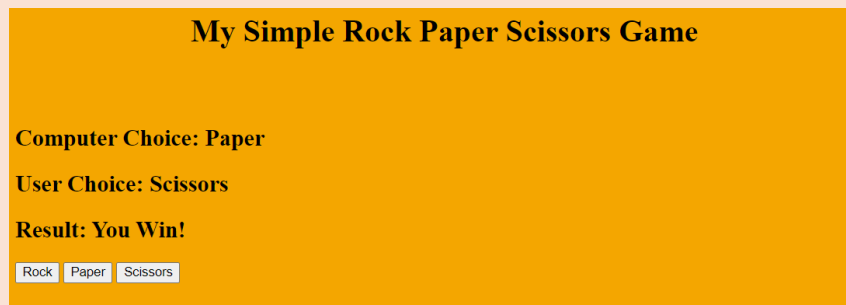

I decided to battle with Rock and unfortunately the computer chose paper. Paper beats Rock so we can clearly see that the Result line reads “You lose, try again”

Round #2

Next round, I decided to battle with Paper and to my surprise the computer also chose paper. As a result, my game indicates “It is a tie! Play again” and no one won this round

Round #3

Next round I decided to battle the computer with Scissors and the computer chose Paper. Scissors beats Paper so I won!

- This was indicated by the Result line, “You Win!”

Thank you for viewing my version of the classic game, Rock Paper Scissors!
